FOR ECONOMICAL TRANSPORTATION

Ten Reasons why 300,000 careful buyers have chosen the New Chevrolet Six since January 1st

Ever since the date of its introduction, the new Chevrolet Six has swept triumphantly on to greater and greater heights of popularity. Value for value and price for price—buyers have compared it with other cars in the low-price field. And the result has been an overwhelming public preference—over 300,000 buyers since January 1st. And everywhere the enthusiasm is constantly increasing—for the new Chevrolet Six combines, as does no other car in the world, those ten great fundamental factors which careful buyers are now demanding in the cars they buy.

6-Cylinder Smoothness

Due to the finer inherent balance of its six-cylinder valve-in-head motor, the new Chevrolet provides that smooth, quiet, flexible performance which is the distinguishing characteristic of the truly fine automobile. At every speed, the power is delivered easily, freely and without annoying vibration. You can ride and drive for hours without annoying rumble or noise fatigue—every mile a delight for both driver and passengers.

6-Cylinder Getaway

And in sheer brilliance of performance, as well as in smoothness and quietness of operation, the new Chevrolet Six is a revelation. An automatic acceleration pump results in remarkably fast acceleration whenever the accelerator is suddenly depressed. And a new high-compression non-detonating cylinder head eliminates every trace of "lugging"—even when you have occasion to accelerate swiftly in high gear.

6-Cylinder Speed

Naturally, Chevrolet's powerful six-cylinder valve-in-head motor might be expected to provide speed in abundance. But even more important than the speed of the new Chevrolet Six is the smooth, quiet, restful comfort you experience at every point on the speedometer. You can open the throttle wide with a feeling

of complete security—and you come to the end of a full day's drive entirely free from the weariness caused by engine noise and body rumble.

6-Cylinder Power

The great reserve power of the new Chevrolet Six is a constant delight. The steepest hills are taken with ease. Heavy roads are negotiated without the necessity for frequent gear-shifting. And even at the higher speeds, there is always that feeling of confidence which comes from the knowledge that additional power is at hand... instantly available for whatever need may arise.

Modern Safety Features

The new Chevrolet Six is equipped with every modern safety and convenience feature—typified by a full ball bearing steering mechanism, nonlocking 4-wheel brakes with separate emergency brake, foot controlled adjustable two-beam headlights, automatic fuel pump, theft-proof Electrolock, electric motor temperature indicator, and Fisher VV windshield and adjustable driver's seat in all closed

models. As a result, it is one of the easiest and safest cars in the world to handle.

Better Than 20 Miles Per Gallon

The marvelous performance of the Chevrolet Six would be considered exceptional in any automobile. But in the new Chevrolet it is nothing short of sensational—for here it is combined with operating economy of *better than 20 miles to the gallon of gasoline*. As a result, those who can afford to own any automobile can afford to own and operate a Chevrolet Six!

Exceptional Riding Comfort

Another vital factor that has influenced hundreds of thousands in their selection of the new Chevrolet Six is its exceptional riding comfort. Built on a wheelbase of 107 inches... offering the deep-cushioned luxury of bodies by Fisher... and with the entire upper structure cradled on four long semi-elliptic shock absorber springs—it travels the roughest highways with amazing comfort. And its balance on turns and curves is equally

exceptional—for the rigid frame and the long springs reduce sidesway to the minimum.

Beautiful Fisher Bodies

The marvelous bodies on the Chevrolet Six reveal, as never before, the matchless artistry that has made the Fisher name renowned throughout the world for excellence in coachcraft. Longer, lower and roomier... finished in attractive, long-lasting colors... and upholstered in rich deep-tufted fabrics that give to the interiors an air of custom elegance—they introduce into the low-price field an entirely new measure of style and distinction.

Proved Dependability

Before the new Chevrolet Six was presented to the public, it had been tested for more than a million miles on the roads of the General Motors Proving Ground. Never did a new motor car go into the hands of its owners more thoroughly proved in every detail. And now, reports of its performance on the highways of the nation pay glowing tribute to its endurance and dependability.

Amazingly Low Prices

Many people do not realize that this marvelous new six-cylinder Chevrolet is *actually offered in the price range of the four*. Compare total delivered prices as well as factory prices when determining automobile values. You will find Chevrolet delivered prices include the lowest handling and financing charges available.

WHAT DOES IT AMOUNT TO?

An elderly party of some four or five years, sitting by the firelight, suddenly burst forth and said musingly: "I often wonder what it amounts to to educate boys and girls and prepare them for some useful occupation. Not half of them ever profit by their education. As soon as they get to be in their teens they usually get married and then wind up by working in some mill. What good does their book learning amount to? I don't ignore education. I wish I had had the privilege of acquiring an education when I was young but work always seemed to be my portion in life and it is at present I hope the young people will not make a failure of life but will improve on their privileges."

Yes, it would seem vain at first thought, for some cases—there is material to think about. "What it amounts to?"—here the starter—you are unable to tell, you can't know, no one does. That young person, we will say, studied hard, had his or her lessons, understood the meaning of the things learned, got the spirit of "do unto others as you would like to have them do unto you," and an understanding of right and wrong, truth and honesty and many other qualities which are character builders—would not these go a long way "in amounting to something?" In the parties marry and work in the mill, an honorable work and make their living thereby.

The earlier education is sending its light along the way; the interests in life are wider, more wholesome and more numerous. Their children are taught with a deeper understanding of life and the lessons learned are passed along. No one can say exactly what the education of boys and girls amount to, it is too big a subject and too far reaching to be answered.

It is of the greatest necessity and the most important period of the life of young folks, this gaining an insight into the diversified paths of education, which as the years roll by gain in added interest, along its many avenues and gives the person no end of pleasure and happiness.

You can't convince a self-made man that he gave himself the worst of it.

OXFORD

Lorenzo B. Jones
Lorenzo Bennett Jones died early Monday, March 25. Mr. Jones was born in Oxford, October 7, 1869, the son of Orrin and Olin (Garcelon) Jones. He attended the Oxford schools, and later went to work in the woolen mill, where he finally became overseer of the card room. Are You Run Down, Weak, Nervous?

To have plenty of firm flesh and the ability to do a big day's work and feel "like a two-year-old" at night, you must eat three good meals a day, relish your food and properly digest it. If you can't eat, can't sleep, can't work, just take a teaspoonful of Tanlac before meals.

Mr. Benjamin Pratt, Federal Post Road, Brunswick, Me., says: "I was 30 lbs. underweight and had lost all energy and vitality. After 6 bottles of Tanlac I gained 50 lbs., and feel like a schoolboy. My appetite is ravenous and I never suffer from indigestion."

Tanlac is wonderful for indigestion and constipation—gas, pains, nausea, dizziness and headaches. It brings back lost appetite, helps you digest your food and gain strength and weight. It contains no mineral drugs; it is made of roots, barks and herbs, nature's own medicines for the sick. The cost is less than 2 cents a dose. Get a bottle from your druggist. Your money back if it doesn't help.

BROWNFIELD

Work was commenced on the State Road, here in Brownfield, Monday, Mar. 25th. Several trucks have been put on besides the State truck. Mrs. Winfield Day and daughter, Ruby are both ill with the measles.

Recently, a deer crossed the road near the State truck, on the Fryeburg road. Mr. Moody saw the freshly made tracks, as he came over the road.

The Walker brothers unloaded two car loads of automobiles, Monday, March 25th. They are the Chevrolet make. They have a new garage near the station.

Our Anniversary is justly famous as the year's most important sale event in Northern New England. First, because it is store wide in scope; bringing an almost unlimited variety of selection at exceptional savings. Second, because it is a sale of our own stocks entirely; therefore of merchandise that is exactly the same as that we sell throughout the year. Third, because it comes right at a time when everyone is ready to buy new things to wear and for the home. Fourth, because the values and savings are so unusually attractive. The Anniversary sale is an expression of our appreciation for the business that has made possible our new store. And we believe that the best way of showing our appreciation to our old friends and of winning new customers is to hold an eight day Anniversary Sale at this time featuring very liberal price reductions.
